

# HINDSIGHT LEGAL

## Helping Lawyers Feel Awesome About Tech

Our mission is to help lawyers and software and service providers work together to leverage the outstanding benefits that technology can bring to the industry.

In addition, we maintain the Legal Tech Buyers Guide, a free resource available to all law firms and legal teams signposting providers across multiple areas of legal technology and services.

We work with local, national, and international legal teams, to optimise outcomes when selecting, implementing, and adopting new technology.

*“Invaluable, impartial insight into the ever-changing legal technology landscape when navigating the minefield of system selection”.*

Legal  
Tech  
Buyers  
Guide

With hundreds of software vendors competing for the attention of law firms and many overlapping technologies and services, it is a minefield of potential pitfalls for law firms venturing into the software selection arena.

Hindsight Legal Consulting has decades of experience working directly within the legal software supplier industry and provides unique insight into the businesses operating in this space, the complexities of the solutions on offer, and the accompanying services and support provided.

**See our website for a full list of Hindsight services provided.**

- Start-up law firms.
- Systems evaluation.
- Strategic planning.
- System selection.
- Project resourcing.
- Contract review.

We can help manage your selection process and facilitate engagement with suitable vendors with whom your business will be able to form long lasting partnerships that are beneficial to all parties.

Our core tenet when bringing law firms and software suppliers together is “Collaboration”. A collaborative approach is essential in creating a successful outcome for both parties and often something overlooked.

We seek to create an environment where great suppliers and customers can thrive by working together in a spirit of partnership, trust, and shared goals.
